

HairMetrix™

The first AI-driven non-invasive hair consultation.

This fully automated real-time analysis requires no hair clipping and allows for appropriate treatment plans and objective outcome monitoring to be easily communicated to your patients.

HairMetrix Benefits

- ✓ Fully automated unclipped analysis
- ✓ Follicular unit vellus/terminal ratios
- ✓ Powerful, immediate, non-invasive hair consultation
- ✓ Objective outcome tracking
- ✓ Uses latest AI algorithms
- ✓ Easy photography by office staff
- ✓ No special scalp or hair preparation
- ✓ Immediately convert patients to hair services
- ✓ No outside lab required

Printable and electronic reports are instantly created.

The new HairMetrix software is fast and simple, allowing for more effective consultations by everyone in the practice.

Clear printed reports customized with your practice branding.

Canfield Care® Service Agreement provides unlimited technical support, hardware warranty, training webinars, software upgrades and ViewMyConsult® patient portal access. One year of Canfield Care is included with your purchase.

Additional seat licenses With HairMetrix or DermaGraphix installed on your local area network, access client sessions from as many work stations as you need—perfect for any practice with multiple consultation rooms.

DermaGraphix® integration provides a direct interface with Canfield's DermaGraphix medical imaging software (available separately) to help monitor and track suspicious lesions.
